

A.C.T.[®] CUSTOM ORTHOTIC
SANDALS AND CLOGS
will exceed your patients' expectations!

As an industry leader in prescription Birkenstock sandals and clogs, Advanced Casting Technology offers more styles and faster turn-around than anyone else in the business. Each pair is custom made to your provided patient model and is expertly handcrafted by our in-house fabricators. Fabrication time in the lab is generally under one week. The A.C.T. custom orthotic footbed features an UltraSuede[®] abrasion resistant top cover and renewable, natural cork/latex custom molded layer. The footbeds are reconditionable, affording many years of useful service.

BIRKENSTOCK®

Made in Germany • Tradition since 1774

Arizona Rx™

This is Birkenstock's classic and most popular two strap design. Taupe Suede available in sizes 35 to 50 in regular and narrow widths. Habana and Black 36 to 46 in regular and narrow widths.

Florida Rx™

Great style and comfort in a three strap sandal with buckles. Available in sizes 36 to 43 in regular and narrow widths.

Milano Rx™

Secure and supportive, the Milano features a rear strap for extra control. Available in sizes 35 to 46 in regular and narrow widths.

Granada Rx™

A more feminine looking Birkenstock® slide design with fashion in mind. Available in sizes 36 to 42 in regular and narrow widths.

Profi-Birki Rx™

Alpro® Foam and Alpro®-Cell construction with removable PU replacement footbed and aggressive anti-slip tread. The custom clogs for Professionals who require waterproof comfort and support. TUV certified anti-slip. Available in regular width sizes 35 to 48.

As makers of custom footwear, we prefer semi weight-bearing foot impressions to ensure a foot model that can be accurately sized and reproduced. The objective is to capture the foot shape in corrected subtalar position while providing accurate arch length, heel width, forefoot splay and overall length. This assures a comfortable plantar foot shape to which appropriate posting/corrections can be made. Preferred impression methods are:

- A.C.T. foam impression trays
- Plaster slipper casts or STS® Sock cured semi weight-bearing on the A.C.T. pillow

*Boston clogs, London shoes, and sandals with a toe separator are not customizable.

Birkenstock® has had its roots in orthopedic footwear in Germany for over 200 years. The tradition of the Birkenstock® style and function continues in the Classics Collection and is as popular as ever. The custom orthotic cork footbed provides exceptional support and control and all Birkenstock footwear can be reconditioned at our service center.

We currently offer more than thirty of the most popular styles and colors of Birkenstock® sandals and clogs with new models being added each season. Our selection offers something for just about anyone's tastes and needs. If Birkenstock makes it, we can customize it.*
